Nikolai Bulanov

SENIOR LINUX SYSTEM ADMINISTRATOR

Haifa, Israel | +972 55 773 1613 | dbnavh@gmail.com | linkedin.com/in/nikolai-bulanov

PROFESSIONAL SUMMARY

IT infrastructure professional with 14+ years of experience in system administration, enterprise infrastructure and operational support. Hands-on experience with RHEL/Linux, laboratory test infrastructure and NVIDIA hardware. Strong in system and network troubleshooting, monitoring, and automation with Python and Bash.

CORE SKILLS

Linux and Systems: RHEL, Ubuntu, Debian; Windows Server, AD, GPO, DNS, DHCP

Automation and Tools: Python, Bash, PowerShell, Git, GitHub Actions, Jenkins (basic familiarity)

Monitoring and Diagnostics: Zabbix, Prometheus, Grafana; system, service and log troubleshooting

Virtualization and Backup: VMware vSphere/ESXi, Hyper-V, Docker, Veeam

Hardware and Storage: Dell, HP, Supermicro, IBM; RAID, SAN, PXE, BMC/IPMI and hardware diagnostics

Networking: Cisco, HP, Aruba, Ubiquiti, Fortinet, Check Point; L2/L3, VLAN, LACP, VPN, NAT, OSPF, Wi-Fi, WLC

Databases: SQL, Oracle, MySQL, SQLite

PROFESSIONAL EXPERIENCE

Test Infrastructure Engineer | Flex, North District, Israel **Feb 2024 - Present**

- Maintain and troubleshoot approximately 300 RHEL/Linux-based functional test stations supporting NVIDIA AI and UFM servers, InfiniBand switches, DGX systems, BlueField-3 DPUs.
- Diagnose OS, application, network, PXE, BMC/IPMI, hardware and firmware issues using system and test logs; perform validation and verification after corrective actions.
- Developed Python and Bash automation and monitoring tools that reduced manual work by approximately 30%.

Senior IT Engineer | Tschudi Ship Management, Germany and Russia **2020 - 2023**

- Led IT modernization for offshore vessels and managed Windows/Linux servers, VMware ESXi, storage, Cisco networks, backups and business-critical onboard services.
- Improved service reliability through Veeam backup automation and Zabbix monitoring; supported SCADA systems and AVEVA Historian.

Senior MES Engineer | GS Nanotech, Kaliningrad, Russia **2016 - 2020**

- Supported and administered the business-critical cmNAVIGO MES application, database and storage services in a high-availability Hyper-V environment.
- Developed C# utilities and SQL/T-SQL stored procedures for data processing, reporting, system integration and equipment connectivity.

Lead IT Communications Officer | MRTS, Arkhangelsk, Russia **2014 - 2016**

- Led a team of three engineers, maintained 99.9% uptime and deployed a three-blade VMware ESXi cluster with shared storage and Cisco networking.

System Administrator | Northern Shipping Company, Arkhangelsk, Russia **2011 - 2014**

- Administered Windows Server, Active Directory, Group Policy, networks and business services for more than 350 users.

EDUCATION

Northern Arctic Federal University | Information Systems and Technology Engineer | 2005 - 2011

CERTIFICATIONS

Microsoft: Querying Data with Transact-SQL (Exam 70-761), 2019
